# Length, Fractions of an Inch, and Line Plots Mission

Warm-up and worked example

**Name:** ______________________ **Date:** _______________

**PAGE 1 | WEEK 7, DAY 2**

| **YOUR MISSION** Measure to halves and fourths of an inch and represent measurements on a line plot. | **SMART MOVE** Name the unit and estimate before calculating. |
|---|---|

## Math Talk

**Which is longer: 3 1/2 inches or 3 1/4 inches? Explain.**

**My idea:**

---

## New Words

| unit | estimate | elapsed time |
|---|---|---|
| My meaning or picture: | My meaning or picture: | My meaning or picture: |

## Worked Example

**Do this example with your teacher. Say what changes and what stays the same.**

1. Review inch marks, half-inch marks, and quarter-inch marks.
2. Measure five objects to the nearest quarter inch.

**What the example shows:** _____________________________________

# Length, Fractions of an Inch, and Line Plots Mission

Learn it and show your thinking

**Name:** ______________________ **Date:** _______________

| | |
|---|---|
| **YOUR MISSION** **Follow the learning path, then explain the big idea.** | **SMART MOVE** **Draw before asking for a rule.** |

[ ] **Step 1:** Review inch marks, half-inch marks, and quarter-inch marks.

[ ] **Step 2:** Measure five objects to the nearest quarter inch.

[ ] **Step 3:** Record measurements in a table.

[ ] **Step 4:** Build a line plot.

[ ] **Step 5:** Interpret the data with addition and comparison questions.

**My model, drawing, or organized work:**

**The big idea in my own words:**

# Length, Fractions of an Inch, and Line Plots Mission

Practice lab

**Name:** ______________________ **Date:** _______________

**PAGE 3 | WEEK 7, DAY 2**

| | |
|---|---|
| YOUR MISSION **Use a model, equation, or explanation for every task.** | SMART MOVE **Check whether your answer is reasonable.** |

**1.** Measure 8-10 objects.

**2.** Make a line plot.

**3.** Answer questions using the line plot.

**4.** Write one question someone else can answer from the plot.

**Choose one answer and prove it another way:**

# Length, Fractions of an Inch, and Line Plots Mission

Challenge and final check

**Name:** ______________________ **Date:** _______________

**PAGE 4 | WEEK 7, DAY 2**

| | |
|---|---|
| **YOUR MISSION** **Try an unfamiliar problem and defend your reasoning.** | **SMART MOVE** **A wrong first idea can still lead to a strong solution.** |

## Challenge Mission

### Find three objects whose total length is as close as possible to 12 inches.

**My plan:**

____________________________________________

____________________________________________

____________________________________________

**My solution and proof:**

____________________________________________

____________________________________________

____________________________________________

____________________________________________

## Final Check

**Explain why 2/4 inch is the same as 1/2 inch.**

____________________________________________

| | | |
|---|---|---|
| [ ] I can teach it | [ ] I need practice | [ ] I need help |

# Length, Fractions of an Inch, and Line Plots Mission

Reusable math tool

**Name:** ______________________ **Date:** _______________

**PAGE 5 | WEEK 7, DAY 2**

| | |
|---|---|
| **YOUR MISSION** **Use this page to draw, model, organize, and check.** | **SMART MOVE** **Name the unit and estimate before calculating.** |
