

Division as an Unknown Factor

Mission

Warm-up and worked example

Name: _____

Date: _____

PAGE 1 | WEEK 4, DAY 3

YOUR MISSION Interpret division as sharing, grouping, and an unknown-factor problem.

SMART MOVE Turn division into a missing multiplication fact.

Math Talk

If $7 \times 8 = 56$, what are $56 \div 7$ and $56 \div 8$?

My idea:

New Words

factor	product	quotient
My meaning or picture:	My meaning or picture:	My meaning or picture:

Worked Example

Do this example with your teacher. Say what changes and what stays the same.

1. Share 24 counters equally among 6 groups.
2. Make groups of 6 from 24 counters.

What the example shows: _____

Division as an Unknown Factor

Mission

Learn it and show your thinking

Name: _____

Date: _____

PAGE 2 | WEEK 4, DAY 3

YOUR MISSION Follow the learning path, then explain the big idea.

SMART MOVE Draw before asking for a rule.

[] **Step 1:** Share 24 counters equally among 6 groups.

[] **Step 2:** Make groups of 6 from 24 counters.

[] **Step 3:** Compare the two division meanings.

[] **Step 4:** Rewrite $32 \div 8 = ?$ as $8 \times ? = 32$.

[] **Step 5:** Use multiplication to check every quotient.

My model, drawing, or organized work:

The big idea in my own words:

Division as an Unknown Factor

Mission

Practice lab

Name: _____

Date: _____

PAGE 3 | WEEK 4, DAY 3

YOUR MISSION Use a model, equation, or explanation for every task.

SMART MOVE Check whether your answer is reasonable.

1. Model $35 \div 5$, $42 \div 7$, and $72 \div 8$.

2. Sort sharing and grouping stories.

3. Solve missing divisors and missing dividends.

Choose one answer and prove it another way:

Division as an Unknown Factor

Mission

Challenge and final check

Name: _____

Date: _____

PAGE 4 | WEEK 4, DAY 3

YOUR MISSION Try an unfamiliar problem and defend your reasoning.

SMART MOVE A wrong first idea can still lead to a strong solution.

Challenge Mission

Write two different stories for $48 \div 6$: one sharing and one grouping.

My plan:

My solution and proof:

Final Check

Explain why $56 \div 7 = 8$ without using repeated subtraction.

☐ I can teach it

☐ I need practice

☐ I need help

Division as an Unknown Factor

Mission

Reusable math tool

Name: _____

Date: _____

PAGE 5 | WEEK 4, DAY 3

YOUR MISSION Use this page to draw, model, organize, and check.

SMART MOVE Turn division into a missing multiplication fact.

Model and Record
