

Cumulative Assessment Mission

Warm-up and worked example

Name: _____

Date: _____

PAGE 1 | WEEK 5, DAY 5

YOUR MISSION Demonstrate understanding of place value, operations, properties, equations, and word problems.

SMART MOVE Replace the unknown and check that both sides are equal.

Math Talk

Solve 12×7 using two different decompositions.

My idea:

New Words

expression	equation	variable

Worked Example

Do this example with your teacher. Say what changes and what stays the same.

- 1. Estimate before computing.
- 2. Draw when the structure is unclear.

What the example shows: _____

Cumulative Assessment Mission

Learn it and show your thinking

Name: _____

Date: _____

PAGE 2 | WEEK 5, DAY 5

YOUR MISSION Follow the learning path, then explain the big idea.

SMART MOVE Draw before asking for a rule.

[] **Step 1:** Estimate before computing.

[] **Step 2:** Draw when the structure is unclear.

[] **Step 3:** Use multiplication to check division.

[] **Step 4:** Substitute to check an unknown.

My model, drawing, or organized work:

The big idea in my own words:

Cumulative Assessment Mission

Practice lab

Name: _____

Date: _____

PAGE 3 | WEEK 5, DAY 5

YOUR MISSION Use a model, equation, or explanation for every task.

SMART MOVE Check whether your answer is reasonable.

1. Use the distributive property to find 7×16 .

2. Solve $n + 348 = 900$ and check.

3. Are 6×24 and $(6 \times 20) + (6 \times 4)$ equal? Prove it.

4. A theater has 8 rows of 24 seats. Then 37 seats are blocked. How many remain?

5. Write an equation for: 5 equal boxes contain 45 markers.

6. Make both sides equal: $7 \times 9 = 60 + \underline{\hspace{1cm}}$.

Choose one answer and prove it another way:

Cumulative Assessment Mission

Challenge and final check

Name: _____

Date: _____

PAGE 4 | WEEK 5, DAY 5

YOUR MISSION Try an unfamiliar problem and defend your reasoning.

SMART MOVE A wrong first idea can still lead to a strong solution.

Challenge Mission

Create an equation puzzle with two different unknowns for an adult to solve.

My plan:

My solution and proof:

Final Check

Write the strategy that has become most useful this summer and give an example.

☐ I can teach it

☐ I need practice

☐ I need help

Cumulative Assessment Mission

Reusable math tool

Name: _____

Date: _____

PAGE 5 | WEEK 5, DAY 5

YOUR MISSION Use this page to draw, model, organize, and check.

SMART MOVE Replace the unknown and check that both sides are equal.

Grid Lab

What does your drawing prove?
