

Fractions on Number Lines Mission

Warm-up and worked example

Name: _____

Date: _____

PAGE 1 | WEEK 6, DAY 2

YOUR MISSION Locate fractions on a number line and interpret them as distances from zero.

SMART MOVE Keep the whole the same and ask how large one part is.

Math Talk

Where would $\frac{1}{2}$ be between 0 and 1?

My idea:

New Words

fraction	numerator	denominator

Worked Example

Do this example with your teacher. Say what changes and what stays the same.

- 1. Mark 0 and 1.
- 2. Partition the interval into equal fourths.

What the example shows: _____

Fractions on Number Lines Mission

Learn it and show your thinking

Name: _____

Date: _____

PAGE 2 | WEEK 6, DAY 2

YOUR MISSION Follow the learning path, then explain the big idea.

SMART MOVE Draw before asking for a rule.

[] **Step 1:** Mark 0 and 1.

[] **Step 2:** Partition the interval into equal fourths.

[] **Step 3:** Label $\frac{1}{4}$, $\frac{2}{4}$, $\frac{3}{4}$, and $\frac{4}{4}$.

[] **Step 4:** Emphasize that points, not spaces, represent numbers.

[] **Step 5:** Repeat with thirds and sixths.

My model, drawing, or organized work:

The big idea in my own words:

Fractions on Number Lines Mission

Practice lab

Name: _____

Date: _____

PAGE 3 | WEEK 6, DAY 2

YOUR MISSION Use a model, equation, or explanation for every task.

SMART MOVE Check whether your answer is reasonable.

1. Place fractions on number lines.

2. Identify missing labels.

3. Match shape models to number-line locations.

4. Explain why $\frac{4}{4} = 1$.

Choose one answer and prove it another way:

Fractions on Number Lines Mission

Challenge and final check

Name: _____

Date: _____

PAGE 4 | WEEK 6, DAY 2

YOUR MISSION Try an unfamiliar problem and defend your reasoning.

SMART MOVE A wrong first idea can still lead to a strong solution.

Challenge Mission

Place $\frac{1}{2}$, $\frac{2}{3}$, and $\frac{3}{4}$ on the same number line accurately.

My plan:

My solution and proof:

Final Check

Draw a number line proving that $\frac{3}{4}$ is greater than $\frac{2}{4}$.

☐ I can teach it

☐ I need practice

☐ I need help
