

Quadrilaterals and Perimeter Mission

Warm-up and worked example

Name: _____

Date: _____

PAGE 1 | WEEK 8, DAY 4

YOUR MISSION Classify quadrilaterals by attributes and find perimeter of polygons.

SMART MOVE Name the attribute being measured before choosing a method.

Math Talk

Can a square also be a rectangle? Explain using attributes.

My idea:

New Words

attribute	parallel	perpendicular
My meaning or picture:	My meaning or picture:	My meaning or picture:

Worked Example

Do this example with your teacher. Say what changes and what stays the same.

- 1. Sort quadrilaterals by sides, angles, and parallel sides.
- 2. Discuss parallelograms, rectangles, rhombi, squares, and trapezoids.

What the example shows: _____

Quadrilaterals and Perimeter Mission

Learn it and show your thinking

Name: _____

Date: _____

PAGE 2 | WEEK 8, DAY 4

YOUR MISSION Follow the learning path, then explain the big idea.

SMART MOVE Draw before asking for a rule.

[] **Step 1:** Sort quadrilaterals by sides, angles, and parallel sides.

[] **Step 2:** Discuss parallelograms, rectangles, rhombi, squares, and trapezoids.

[] **Step 3:** Define perimeter as distance around.

[] **Step 4:** Measure and add side lengths.

[] **Step 5:** Find an unknown side when perimeter is known.

My model, drawing, or organized work:

The big idea in my own words:

Quadrilaterals and Perimeter Mission

Practice lab

Name: _____

Date: _____

PAGE 3 | WEEK 8, DAY 4

YOUR MISSION Use a model, equation, or explanation for every task.

SMART MOVE Check whether your answer is reasonable.

1. Classify quadrilateral cards.

2. Find perimeters.

3. Draw a polygon with a given perimeter.

4. Solve one missing-side problem.

Choose one answer and prove it another way:

Quadrilaterals and Perimeter Mission

Challenge and final check

Name: _____

Date: _____

PAGE 4 | WEEK 8, DAY 4

YOUR MISSION Try an unfamiliar problem and defend your reasoning.

SMART MOVE A wrong first idea can still lead to a strong solution.

Challenge Mission

Draw two different rectangles with perimeter 24. Which has the greater area?

My plan:

My solution and proof:

Final Check

State one attribute every rectangle has and one attribute every square has.

☐ I can teach it

☐ I need practice

☐ I need help

Quadrilaterals and Perimeter Mission

Reusable math tool

Name: _____

Date: _____

PAGE 5 | WEEK 8, DAY 4

YOUR MISSION Use this page to draw, model, organize, and check.

SMART MOVE Name the attribute being measured before choosing a method.

Grid Lab

What does your drawing prove?
